OUR PROGRAMS

MCC's Diploma of Indigenous Business program has been designed to prepare our graduates for direct acceptance into the Bachelor of Business Administration degree (BBA) program. We have revised our standards of admission to match those required of any College or University in Alberta. Our graduates are also prepared to enter the workforce or manage their own businesses.

MCC's new Leadership and Administration Certificate serves as the pre-qualifying program for the Diploma of Indigenous Business diploma. This certificate ensures that any of our applicants that desire a diploma or degree in Business but who do not have all the required courses for admission are able to achieve all the pre-requisites along with a good introduction to business and administration disciplines.

WE BELIEVE IN YOUR POTENTIAL

We believe an education combined with a strong sense of cultural identity is essential for success with young people.

We hope to motivate students in finding their inner strengths and abilities and discover what interests them to capture inspirational ways of delivering instruction.

We aim to provide a project based learning environment that encourages critical yet confident personal opinions.

“Honor the blessing that you have physically and then combine it with the mental and the physical and the cultural, so that you have a wholesome foundation for life.”

Willie Littlechild's message for young people.

THE APPLICATION PROCESS

The next in-take of students for the MCC Diploma of Business Administration will be **Fall 2018**. All applicants must submit full applications by **March 1st, 2018** to be considered for the Fall program. For the Leadership and Administration Certificate program there is an intake for Fall 2017
